NUMB. 1257

MONDAY, JULY 2. 1739.

N^o. 1255.

Bastia, June 2. O.S.

OUR of the most considerable Clans of the Island have follow'd the Example of the Inhabitants of the Province of Balagna, and have sent Deputies to the French General to declare to him, 'That they now submitted to the King of France with Pleasure; and that what-

ever Resistance they had made before, was owing only to their Dread that they should be again forc'd to yield Subjection to that Power which they held in such Abhorrence, that they had rather perish than be reduc'd to it.' 'Tis hardly doubted, that the rest of the Malcontents will also shortly submit, or of their Leaders being retir'd to a Convent near Monte Maggiore, to consider what Course to steer; Marquis de Maillebois has caus'd it to be invested with 250 French Soldiers. The main Body of the French lies incamp'd at Monte Maggiore; which is the most important Post of the upper Part of the Island, and stands upon an Eminency which commands the Province of Balagna, &c.

Gibraltar, June 8. According to the News from Africa, the Empire of Morocco is still distracted by Factions for the several Competitors to the Throne; that Muley Abdallah, having assembled a great Army of Blacks on the Frontiers of Guinea, is return'd thence towards Taradante.

Warsaw, June 10. O.S. The News that was given of a Action towards the Niester, between the Russians and Turks, is so far from being true, that the two Armies are not less than 100 Leagues asunder.

Vienna, June 13. O.S. They write from Hungary, that the Turks have demolish'd Meadia at the Approach of the Imperial Troops, and threaten to do the like by Orsova. They add, that General Wallis is march'd with Two Columns of his Forces towards the Morava; and that the Count de Neuperg is moving with his Body towards Caransebes.

Rome, June 13. N.S. In the Wall of the Chevalier de St. George's Chapel there have been lately found Three Holy Thistles, with actual Stalks and Leaves, which have their Root in the Stone Work; where 'tis suppos'd to have been form'd without any human Concurrence. As there is in Great Britain an Order of the Thistle, instituted by King James V. of Scotland, and solemnly re-established by King James the Second of England, the Partisans of the Chevalier think it a good Omen for their Master, and are very watchful to see what Turn the Dispute takes between Britain and England, especially considering the Indifference which the Cardinal de Fleury has shewn himself to prevent the Consequences apprehended from it, at a time when his Eminence takes such notable pains to accommodate the Differences of such a Variety of Powers and Nations, Infidels and Protestants, Dissimulants and Catholics. A March is also talk'd of, in consequence of these Reflections, between the Chevalier's eldest Son and a Princess, the Daughter of one of the chief Crown'd Heads in Europe.

From the London Gazette.

Copenhagen, June 30. N.S. The French Squadron, without any Reinforcement, (the Expectation whereof seems intirely groundless) is just now under full bound for Stockholm, where the Marquis d'Antin, according to his Discourses, intends to stay about a Fortnight, and then to make the Tour of the Baltick; after which he proposes, towards the end of August, or in the Month of September at the latest, to return hither again, and to pay his Court to their Danish Majesties, who came last Night to Fredericksbourg from reviewing the Militia, and this Day after Dinner are to return to Hirschholm.

Dresden, July 1. N.S. By a Messenger who arrived here the 28th past from the Russian Army marching in Four Columns under the Command of Velt Marshal Munich, we have Advice, that that General came upon the Frontiers of Poland the 8th Instant, and pass'd by Trilissa the 12th, and that the general Rendezvous of the Army is to be at Wolodarka; which Route seems to tend to Choczim. The said General in a Letter to his Polish Majesty, promises to observe the strictest Order.

Court to Mr. Edward Clarke, an Attorney at Law, at his

An Infallible REMEDY

For BROKEN-WINDED HORSES,

Which has been published and sold
many Years before any Counterfeits in other
Forms appeared; and highly commended from one Friend
to another. The vast Quantities that have been sold do
also verify its Efficacy and Virtues, for it most perfectly
cures them, after all others Means have been in-
fectual, to a Wonder, in a small time, without Confinement;
by attenuating and opening the Globules of the
Lungs dried up, and all the Passages obstructed by Humours
dripping thereon, occasion'd by hard Riding, Colds, &c. It
causes presently a free Perspiration, renewing its Force, Vi-
gour and Length again, as well as ever.

It immediately cures those Horses only a little touch'd in
their Wind, as also all continued Coughs, Colds, Wheezing,
&c. being excellent in preventing many other Distempers
incident unto them, by maintaining, preserving, and continu-
ing a good Breath.

And in a word, by this very Medicine alone, many Horses
have been made so perfectly sound, that they have been sold
and valued from 10 to 30 or 40 Pounds, which by being
Broken-winded, could not before be sold for 3 or 4 Pounds.

It is sold at Mr. Sandwell's Toy-Shop at the Griffin, the
Corner of Buckler's-Bury in the Poultry, at 4 s. 6 d. the Quart
Bottle, with Directions for taking it; and no where else in
England.

The only short and infallible Cure

for that reigning Disease the SCURVY, and all Scorbutick
the arrived to the highest and most inveterate Degree, or
ever so many Years standing, and that without any sensible
cution or the least Purg'ng, which by an unaccountable
is generally advised, although always found rather to increase
confirm the Scurvy than cure it.

By the so much famed and most pleasant Chymical DROPS

WHICH, without the least Trouble
Confinement, or any Disorder whatever, do as certainly
at the true Cause of the Scurvy, and insensibly destroy it, with
Scorbutick Humours and Effects, Root and Branch, so as never
return again, as many Thousands of both Sexes have experienc'd,
and as all who take them in 3 Days time will be convinc'd, by
they almost instantly alter the morbid State of the Juices, purify
Blood, sweeten all the Fluids, cleanse them from Impurities,
directly clear the whole Habit from all Spots, Bloaches, black
blue Marks, Itchings, foul Eruptions, or Breakings out, Weakness
of the Limbs, languid Heaviness of the whole Body, watery
Pains, Weakness of the Back, and all the vast Variety of Sym-
ptoms by which the Scurvy imitates and often lies conceal'd under
the Appearance of the Rheumatism, and many other Distempers.

And for strengthening the Stomach, immediately creating a good
Appetite, causing a regular and easy Digestion of Food, and
all windy Effects and Disorders of the first Passages (where
pleas Head-achs, Vapours and other Indispositions) no Bitters
other Medicine upon Earth can compare with them, insomuch
that besides infallibly curing the Scurvy in all its Shapes and Ap-
pearances, they also assuredly and immediately cure the Green-sickness
in Virgins, Worms of all Kinds in young or old, and death of
other Chronic Diseases, (which are chiefly occasioned by indigestion
and stantant Crudities in the Stomach and Bowels) and com-
pletely prevent Fevers, Agues, and other acute Illnesses.

They are wonderfully Cordial and Restorative, strengthen
enliven the whole Machine, and as soon as taken, make the Patient
pleasantly Light-hum'd, brisk and Vigorous to admiration, and

mical Drops have to universally gain'd among Persons of Distem-
per, for their suddenly and infallibly curing the Scurvy and all Scor-
butick Humours, and other Chronic Diseases, in such an easy and
agreeable Manner, have occasioned many to imitate them, and
under the same, and others under other Names: Be careful there-
fore not to be deceiv'd; but be sure to have the Right, which
the Author's special Appointment, are to be had only at the
Stewards, at the Two Blue Posts, in Haydon-Yard, in the
Moorfields, at 4 s. 6 d. a Bottle, with Directions.

ANTI-SYPHILICON.

THE only short and most infallible

Cure in the Universe for the VENEREAL DURESS,
from the lightest Infection to the most extreme and deplora-
ble Degree of it, even when the Blood and Juices are co-
rroughly contaminated with its malignant Virus, and the
ry Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attend-
Symptoms, tho' ever so severe, are entirely carried off in
it in a few Days, and so as effectually to prevent the Blood
and Juices from being tainted with any remaining Residue
on one Hand, or a seminal Gleet or Weakness to lay on
the other.

And the most inveterate Degree of the French Illness,
attended with Nocturnal Pains, universal Breakings out,
and all the other most exasperated Symptoms, are
overcome by it, and effectually and much more safely
red than by Salivation, Inunguation, or any other Method
whatsoever, and in so easy and pleasant a Manner, without
pairing Strength, or occasioning any Inconvenience, as to
bespeak it the only apposite Remedy or true Venereal
Antidote in the World; and this some Thousands have
their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Distem-
per nor requires Confinement; but may be taken, and the Cure
be accomplish'd, without the Knowledge of the nearest
Friend.

Those who suspect they have received an Injury, may
by only a Dose or two of it, be perfectly freed from all
Apprehensions; for it suffers no lurking Venom to lie
in the Body, but wholly extirpates it Root and Branch, and
is gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining
licks of former Injuries, may by a few Doses of it insensibly
themselves from all Suspicion of that Kind; for it admits
no Foulness, Corruption, or Putrefaction whatever, to re-
main in the Fluids, or to adhere to the Solids; and on that
Account, in all scorbutick, scrophulous, and even lepro-
Eruptions or Foulnesses of the Skin, Glandulous Swellings
and Impurities of the Juices, it does more by one
than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHILICON is but
Six Shillings a Pot, which, considering its extraordinary Efficacy,
one Pot only being sufficient in most Cases to accom-
plish the Cure, is not a tenth Part of its Value; and is ap-
pointed by the Author to be had only at Mr. Ratnoff's
Toyshop, at the Rose and Crown against St. Clement's
Church-Yard in the Strand, ready sealed up with a Book of
Instructions, by the Perusal of which, all Persons who
ever affected with any Degree of the Venereal Disease, may
perfectly understand their own Condition, and certainly
know when, and when not, the Venereal Poison is intirely
rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.
